A Woman - a poem by Keisha Husband

A woman Like all others

Given to wild theatrics *And understated emotion*

In the place where roads
Are shorter
Front to back
Back to front

adidas
DIEGO

Looks upon these pages and remembers

Exactly when and
where the poet was
conceived

GOURDS

Under slender slivers of moonlight

Caresses the heart and remembers

Exactly when and where the scientist was born

Early Spring Lehman lawn

On blades of shuddering grass

Cradles the book in her lap and remembers

Exactly when and where the activist was born

On the steps of Barnard hard like concrete
She of even stronger convictions

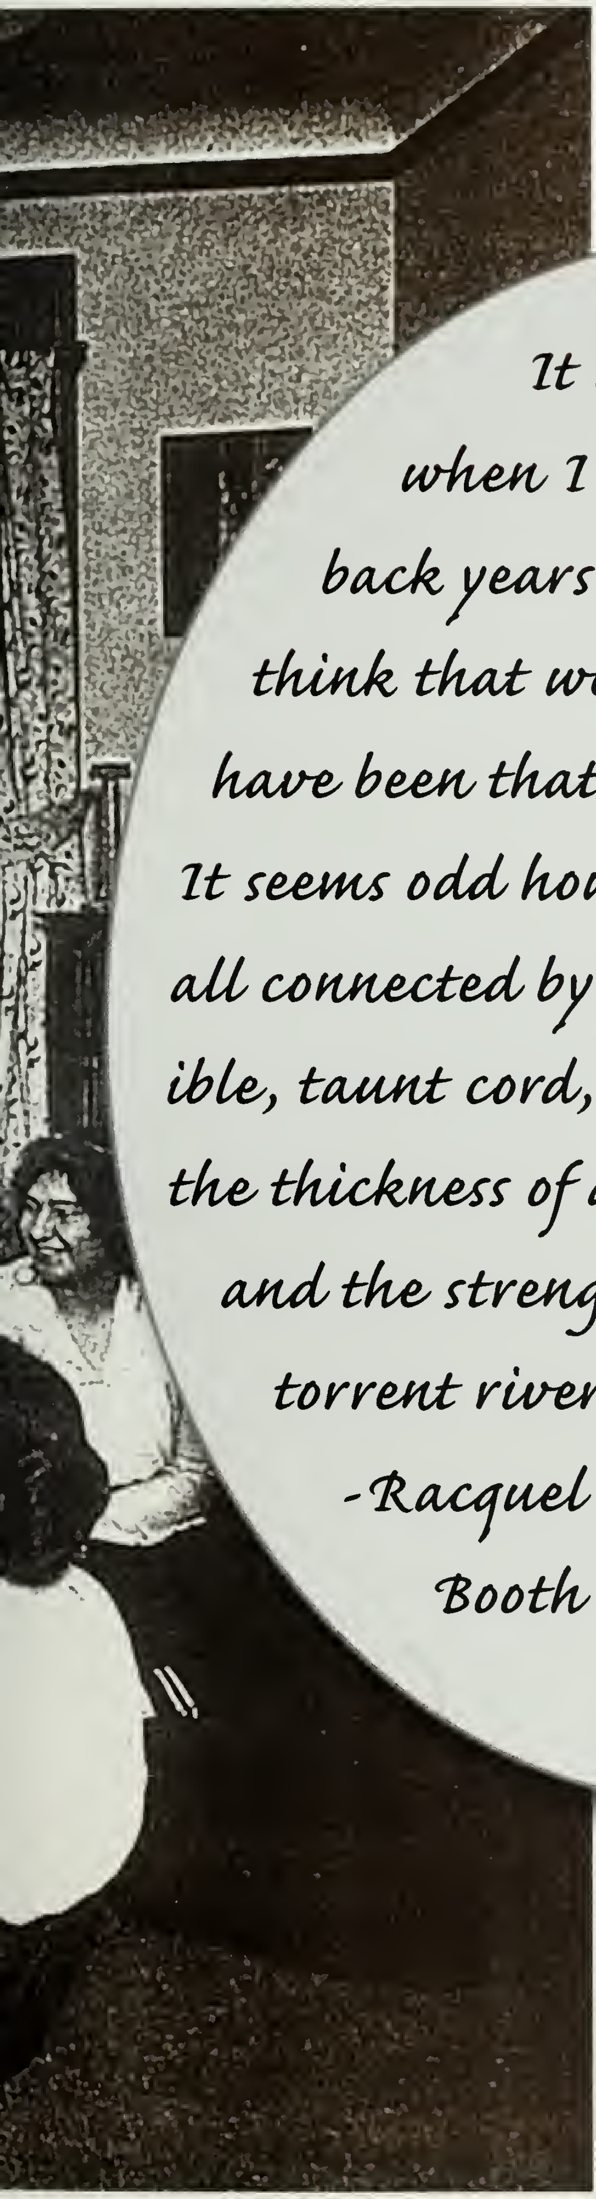
A woman like all others

Given to wild theatrics and understated emotions

Quietly celebrates, the artists and

activists, engineers and executives

The women of now in the faces of yesterday



It was cryptic,
when I looked
back years later, to
think that we could
have been that way...
It seems odd how we are
all connected by a thin, invisible,
taunt cord, with
the thickness of a hair
and the strength of a
torrent river.

Spending their sophomore year in Plimpton was a barrel of laughs for Tania and Christina.

“People who live on hills sleep so close to the stars they forget those of us who live too much on earth.”
-- Sandra Cisneros, The House On Mango Street

The House on 116th street

We didn’t always live in the building reserved for seniors, 620. We didn’t always live in Sulzberger Tower near the stars. Before that we lived in noisy 616, quiet Elliot and large Plimpton. We moved around a lot, like nomads. In our first year we squished like sardines into the doubles of Sulzberger and Reid. Feeling lonely and scared initially, like mice, we ventured out to make friends on our floor. The ears of those dorms held our first college failures, successes, fights and friendships. In our second year we had to choose to live alone or in a group. We chose between the safety and security of the Quad or the freedom away from campus in the solitude of a room of one’s own within the bustle of a suite. Would you rather consume numbers on a meal plan or tinker with your own culinary talent? Here they like to call these “choices” the *Housing Process*. Every year we’ve had to go through it, like running on a treadmill and trying to accumulate points. Points moved you up on the housing ladder, or so we thought, until the crunch of ‘99 came and some of us were stuck on lower rungs. Yet at least we remember it together. In each building we left a part of ourselves, in the kitchens that we cooked in or the bathrooms that we shared; in the common rooms that we threw parties in, as well as on the whitewashed walls filled with our old tape marks, standing out like fingerprints of young women gone.

To speak or laugh? Which is the better of the two? Barnard women indulge themselves in an enlightening conversation atop a bunkbed in the privacy of their own room.

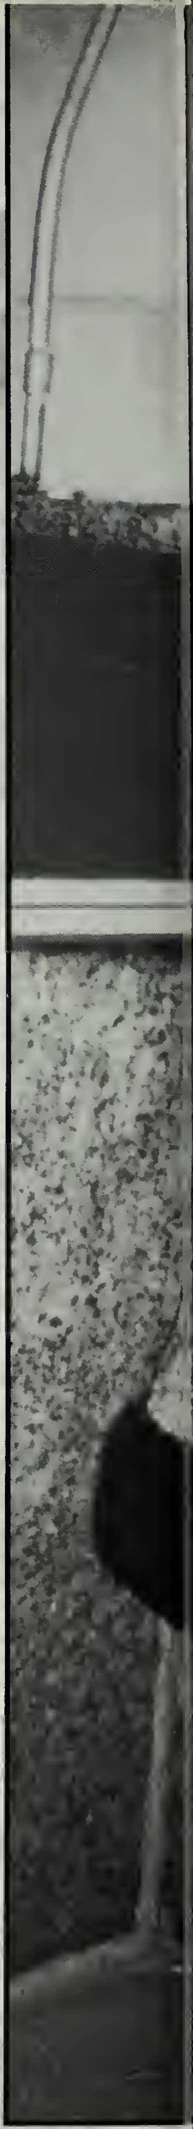
Resident adviser Ilana Garber in building 620 gathers with residents in her suite kitchen for a pizza party at the beginning of the fall semester.



When not pressed for time, Barnard women like to hang out in front of their dorm buildings. Bundled up, seniors Melissa Viscovich and Maya Cooper step out for a breath of fresh air in front of 620, their senior dorm.

The greatest thing about a dorm room is the potential to cover it up with color and style. These creative seniors used aluminum foil, lights, and a Christmas stocking to make a room all their own in anticipation of the holidays.

After knocking on each other's doors to say "Hi," borrowing things from one another, staying up past dawn studying and speaking together, these seniors huddle for a quick picture to remember all their time spent together.

For those with great views of Manhattan in Sulzberger Tower, the lounges serve as communal livingrooms. Sneaking away from academic pressure, two women revel in a moment of peace and relaxation.

Ahh... the thrill of relaxation!

As Barnard Alumna, Anna Quindlen, once said, "Coming here made me realize that I was not the smartest girl in the world."

Students-n-Stress

It is highly dubious for a Barnard student to pass through college without feeling an ounce of stress. The immense intellectual activity, electrifying classroom discussions coupled with demanding professors and challenging papers can sometimes make one feel completely overwhelmed. There are always piles of work to do, loads of laundry to clean, and several papers, labs, tests and projects to complete. Senior year comes with its own special blend of stress from writing a thesis to interviewing with firms to completing all the course requirements. When is there a moment without stress? Sleepless students slump around campus hiding oily hair beneath caps during midterms and finals. High on sugar and caffeine students spend nights incarcerated at the library studying and stressing out. However, Barnard offers women ways of coping with the stress beast from offering classes on yoga and meditation to publishing a "Well-Woman" newsletter keeping students informed of ways to stay healthy. Even during the craziest time of the semester--finals, students still manage to participate in bi-annual activities like the "Midnight Brunch," and Orgo Night featuring the Columbia University Marching Band.

A few hours before finals, exactly at midnight, a loud drum bang signals the anticipated arrival of the Columbia University Marching Band. Hundreds of Barnard and Columbia students pile into Butler's main reading room , standing on top of desks , chairs and windows to hear the band's scathing and satirical sounds.

Students rush to and from classes, passing the library and Lehman lawn, headed in different directions, pressed for time, late with papers, high on sugar and caffeine, and anxious not to confront lousy grades or angry professors.

A Day in the Life of a Student

8:30 A.M.: The alarm rings for the third time and rubbing her bleary eyes she reluctantly rolls out of bed.
8:55: Flora and fauna welcome her as she treks into Physiology, Ecology and Evolution, thinking: "Life is a dream. 'Tis walking that kills us. He who robs us of our dreams robs us of our life." --Virginia Woolf.
10:35: She troupes into Shakespeare highly prepared to discuss the sexual undercurrents of "A Midsummer's Night Dream."
12:00 PM: The student rushes off to meet friends to socialize and finally grabs fries for a quick lunch in lower McIntosh.
12:30: She impatiently waits for the 1/9 to lead her to midtown for an internship at Life Magazine.
6:00: Returning just in time for a writing class, the student deconstructs herself through words.
8:00: She runs to an SGA meeting, prepared with her plan to leave a significant change at Barnard, thinking, "I am a work in progress."
10:00: Butler's heavy doors await her daily entrance to the study room.
12:00 AM: She lights a cigarette for a study break outside.
2:00: Finally the day is done. The student breathes a sigh of relief, rolls to the right and enters into a blissful sleep.

Whether it's just catching some rays, studying or talking with friends, the steps are a big part of our college experience.

Before going out freshman year, four friends, Gena Peditto, Jennifer Hyon, Hannah Krimins and Kris Seaman, stop for a quick picture in front of Jennifer's door.

"Part of the secret of success in life is to eat what you like and let the food fight it out" --Mark Twain

Beyond Beef

"Let us have tea and speak of absurdities"--an arcane phrase from Barnard's whimsical past still echoes through the dining halls of Hewitt, McIntosh and the Quad Cafe. Perhaps we are no longer avid tea drinkers, but each of us enjoys the chance to laugh, socialize and chat over Barnard's culinary offerings. Aramark provides a range of dining options from full packaged meals to simple snacks, something for the ravishing beast within all of us, be she vegan, vegetarian, kosher, carnivore or caffeine addict. Everyone hates to eat alone; hence the meal plan is a requirement for all first years. When our hunger craves adventure, sustenance is offered through the plethora of eating establishments in Morningside Heights, not to mention all of New York City. Perhaps the best part of living in the Big Apple is that even at 4:00 in the morning, there is somewhere we could go to satisfy our stomachs.

photo by Mortarboard staff

"The Wrap" has become a popular lunch option for students on the run or women wanting to split the cornucopia of nutrition with a good friend. Michelle Collins, Nicole Neusten, and Sidney Park enjoy a laugh and some wraps in Upper Level McIntosh.

Lower level McIntosh attracts students for lunch like bees to honey. Not only does the multitude of food options call the hungry students' name but also the guarantee that you'll run into at least one good friend.

photo by Mortarboard staff

Tired of eating in the Hewitt dining room and unwilling to leave the comfort of their suite, these two settle for concocting Sunday brunch at home. Homemade french toast, pancakes, eggs, and crepes are the standard fare for any leisurely weekend and easily put together by the talented Barnard woman.

Open up! A well-balanced meal makes for a well-balanced student. Remember when your mom told you to eat your vegetables? Now, you do it on your own, with a little help from Well-Woman, Aramark and a health conscious friend.

photo by Mortarboard staff.

Veggie Burger or fries? McIntosh offers a cornucopia of choices for the famished Barnard woman. From Caesar wraps to "Itza Pizza" to the traditional grilled sandwiches, Mac can satisfy any picky eater's palate.

photo by Mortarboard staff.

"Is it good to the last drop?" Mocha, Latte, Cafe au Lait, or Frappuccino? The ubiquitous Starbucks turns caffeine consumption into a higher art form. Whether the first cup of Joe is in the morning, an afternoon coffee break or the late night pick me up, Barnard women seek the elixir to their student woes.

Jennifer Rosen spends some quality time with her friend Ruggles the Bear in her dorm room.

Jennifer Cantrell, Miriam Kurnit and Niyati Thakur show their Halloween spirit before leaving for the annual Village Halloween Parade.

Miriam Kalnicki and Karen Berenthal stop their Halloween revelry for a moment to pose for the camera.

Having a birthday at Barnard can be a blast when you have friends like Afua Agyarko and Nina Judar to get the party started.

Great Books

The inevitable query, "What's your major?" accosts each of us nearly daily before we graduate. How do we reply? Which course of study should we to choose in a college reknowned for brilliant professors and challenging courses? The choices are endless. Toy with "Physiology, Ecology and Evolution" or Economics in the first semester. Delve into Plato and Locke with Professor Dalton in "Political Theory". Immerse yourself in Virginia Woolf's The Waves with Professor Mary Gordon in the "Modern Novel". Visit "Religious Experiences of New York" with Professor Weisenfeld. Bury thy mind in Milton's Paradise Lost with Professor Loscocco. Travel to lost civilizations with Professor Kampen and recreate the arts in "Drawing in a Museum". Check out guest lectures by Elie Wiesel, Cornel West, Anna Quindlen, and Oliver Sacks. Discover hidden talents in art, music, creative writing, and dance. The possibilites are endless; the time short. The exams pressing; the memories lasting.

Age of Innocence

Steppin' out...or stayin' in, Barnard students know that some downtime is essenial to sustaining one's mental acuity and cultivate the well-rounded, emotionally-stable Barnard Woman that we all know and love. The local bar scene abounds with possibilities, from The West End and Nacho Mama's to 1020. It's a great way to kick back with friends, meet new people, get a little crazy and ,of course, enjoy the alcohol now that most of us are of legal age (although it never was an issue before). But the bars can get old, so why not shake things up with a movie, a laidback lunch or just some time spent laughing with friends? If the schoolwork threatens to eclipse your existence, give in, but at least enjoy a fine cup of tea.

Photo by Mortarboard staff.

Crazy wild clubs or relaxing with some pals, Barnard women do it all, and they never seem to get tired! Why limit yourself? The myriad of possible leisure activities only hints at what our students are all about.

Free stuff is what college is all about! Students happily partake of free entertainment when offered. Part of the cast of "The Owl Answers" poses after a free performance during the senior thesis festival .

The ever clever Barnard woman knows liquor is America's favorite legal depressant. It loosens inhibitions, dissolves stress and is a salve on any troubled life. But beware Barnard woman, a little goes a long way.

Beer is Good!

Cupid's piercing arrow hit these two on Valentine's Day and it was love, or at least mutual infatuation. They enjoy an easy hug, proving there are men to be found on Barnard's campus.

"Everyone has talent. What is rare is the courage to follow the talent to the dark place where it leads." --Erica Jong

Great Expectations

"There's no place like Barnard," announced the placard, wedged in between the dinner roll plate and the champage glass. A stuffed toy version of Toto, looking rather forlorn, sat in the basket in the middle of a round table. Festive red and white ballons adorned Lower Level MAC as many seniors, tastefully dressed for the occasion, chatted with friends and listened to a Barnard Alumna speak at the podium. The occasion called for champagne and flashes of the camera. Familiar faces not seen since First Year or Transfer Orientation dotted the landscape. On the podium, President Shapiro advised every student to finish her thesis and remembered folk singing after college. Barnard alumna, Stephanie Cook '66 informed the seniors their twenties will suck, and that, (in advertising terms) "We are the mortar that holds up the brick." The road after college loomed uncertain and arduous, filled with twists and turns, nooks and crannies. Yet, for the first class of the millenium , it also held promise and greatness.

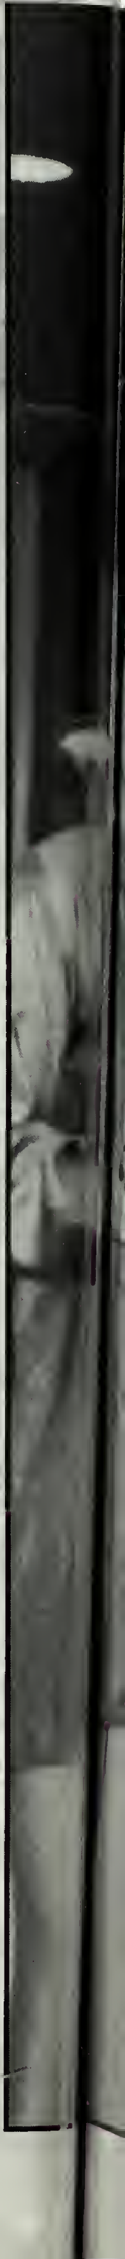
Political Science majors, Susan and Andy, recall that the soul has either come out of the brighter life and is unable to see because unaccustomed to the dark, or having turned from darkness to the day, is dazzled by excess of light.



Have we entered Oz yet? Presidents Judith Shapiro and Melissa Marrus toast the class of 2000 with a fellow Barnard woman. The memories are magical, the future bright yellow and red, and the women of now prepare to create history.

The clock nears the 2000th hour, as these seniors smile and give thanks for the whimsical past, the unfinished present, and the inevitable future. They are the women of now taking their rightful place in Barnard's long and rich tradition.

A Barnard senior enjoys a bit much champagne in honor of her upcoming graduation. Sparkling champagne opens the mind, unrolls the memories and heightens the sense of euphoria and nostalgia in the air.

Senior Week 2000

So we talked all night about the rest of our lives. Where we're gonna be when we turn 25. I keep thinking times will never change. Keep on thinking things will always be the same. But when we leave this

year we won't be coming back. We'd get so excited and we'd get so scared. Laughing at ourselves thinking life's not fair...As

we go on, we remember. All the time we had to-
gether. And as our lives change. Come whatever.
Ve will still be friends forever. So if we get the big
obs and we make the big money. When we look

back at now will our jokes still be funny? Will we still remember everything we learned in school? Still be trying to break every single rule? I guess I thought that this would never end and suddenly it's like we're women. I keep - keep thinking that it's not goodbye. Keep on

thinking it's our time to fly. As we go on, we remember. All the times we had together. And as our lives change. Come whatever. We will still be friends forever.

GUYS AND DOLLS

"Sit down you're rockin'
Sit down... Sit down
Sit down you're rockin' the boat!" - Guys and Dolls

Although New York's most southern point seems worlds away from our niche up here at Barnard, many students find the finanacial district offers an excellent alternative to their regular Morningside Heights routine. It is down in this neck of the woods where students visit Wall Street, the Statue of Liberty, the Brooklyn Bridge, and the World Trade Center. Many students find this area invigorating because of the immense history connected with it, while finance hopefuls dream of their future sleepless nights pining over stock options in one of the historic buildings.

When students look for a crazy, out of the ordinary afternoon adventure, they may head down to Battery Park and hop on a ferry headed to Liberty or Ellis Island. Liberty has been guarding and guiding our city for hundreds of years, and there is absolutely nothing like the view from the top! If you survive the climb, it is totally worth it!

At Ellis Island, a beautiful weekend hideaway with a view of the gorgeous New York skyline, students can learn about the immigrants who came to this country from all parts of the world. The wall of names denoting those who went through Ellis Island proves to be moving for all. Stumble upon a long lost relative and learn the history of New York.

The Brooklyn Bridge is one of those places in New York that you just cannot miss. At one point or another every student should walk across and enjoy the beautiful lights and scenery. The feelings engendered in a person are unlike any other. It is New York's most famous bridge and a definite must see!

There is no other building like the **Brooklyn Bridge**. Walking the Brooklyn Bridge at night can be most romantic for young lovers in this city. BUT... don't forget your sweater!

The **New York skyline** is arguably the most famous skyline in the world. Visually intense, it oftentimes takes a person's breath away.

One of New York's most visited attractions, **Ellis Island** marks the landing point of thousands of people who immigrated to the United States.

A CHORUS LINE

What would New York do without Greenwich Village?

There is no better way to describe this "bohemian haven" except that you can be who you want to be without ridicule! The West Village has become one of New York's trendiest neighborhoods, and is the center of what is cool and "happening" in the city. You just never know what or who you are going to see when you walk through Washington Square Park, or what these crazy New York University "kids" are doing.

The East Village is the place where Barnard students go when they want to escape the trend whirlwind. But even as it skirts the trends, the East Village has not been able to escape the Starbucks frenzy or the GAP.

Chinatown and Little Italy offer a little excitement and a lot of change from these dull uptown weekends. There is absolutely nothing like the commotion of China-Town or the excellent Gelatis in Little Italy. And, if you are lucky you might stumble upon Little Italy's San Genaro festival. Mmmm! Good food, good drink, good times...

The architecture at Washington Square Park is a small replica of the **Arc de Triumph** in Paris. This however, is only one of many great attractions, not to mention arcs, in this busy city.

There is never a moment of silence in **China Town** where hustle and bustle is as natural as honking horns and jay walking. Students always have a good time shopping for knick-knacks or getting some great food.

42ND STREET

"Come and meet those dancing feet...

On the Avenue I'm takin' you to,

Forty-Second Street" - 42nd Street

Times Square, baby! Midtown West is the place to be. This area puts meaning to the song "They say the neon lights are bright on Broadway." Barnard students get to take advantage of cheaper ticket prices, so students get to enjoy the thrill of the theater. Times Square is often said to be the focal point of the city. There is no doubt that it was the center of the world on New Year's Eve 2000! See a movie, or watch one being filmed. Grab a bite to eat and marvel at the innovative advertisements. And maybe even catch your favorite sitcom on the big screen TV.

Aside from Times Square, there are other exciting sights to be found in this area. Barnard students often find the New York Public Library to be a great supplement to our own Butler, Lehman and twenty-something others. It is a resourceful place to research odd topics, write reports or to just read and think. As a break from studying it is always fun to stare in the windows of MTV studios!

PLAZA SUITE

"New York is where I'd rather stay, I get allergic smelling hay. I just adore a penthouse view. Darling, I love you but give me Park Avenue." - Eva Gabor in Green Acres

Ah, to be on Fifth Avenue. Midtown East seems worlds away from the "ten block radius" we call home. Boy, is it fun to explore! If you are a people watching fan, you can always find camera crazy folks in front of FAO Schwartz and Rockefeller Center. Or you could take advantage of the great shopping possibilities that this part of town has to offer. Release tension in Central Park. Maybe even treat yourself to a carriage ride if the weather is nice. But beware, bring your nose plugs! The students who do not mind waking up a little early can go down to Rockefeller Center and stand outside the window of the Today Show. Chat will Al and the rest of the crew. It is kind of chilly that early in the morning but it is totally worth it to see yourself on TV. Afterwards, grab a drink in the Plaza or walk through the Pierre Hotel. Perhaps you will see the Vice President or other famous people rumored to stay there.

ON THE TOWN

"If you don't know where to go to, why don't you go where fashion sits... Puttin' on the Ritz."

The Upper East side is categorically known as New York City's ritzy neighborhood. With a myriad of designer stores, boutiques and lovely cafes, it is a shopper's dream and a student with a fixed income's nightmare!

While Madison Avenue appeals to shoppers, the mansions of Carnegie and Frick along Park Avenue are attractive sites for tourists, art history students, or just about anyone!

On the weekends, some like to sit back and relax to some jazz at the Guggenheim or the live music at the Metropolitan Museum of Art. Others may prefer to spend some time in Central Park lounging in the grass, taking in a free concert, or ice-skating in the winter. Any way you look at it, the Upper East side is a hip and happening place to be.

WEST SIDE STORY

"I'm so excited because I'm going to go to the High School of Peforming Arts. I mean I was dying to be a serious actress. Anyway it's the first day back in class and we're in the auditorium, and the teacher Mr. Karp puts us up on stage with our legs around everybody - one in back of the other, and he says: 'OK, we're gonna do improvisations. Now, you are on a bob-sled, and it's snowing out. And it's cold. OK - go'" - Diana in A Chorus Line

The Upper West side has evolved into one of New York's nicest areas. It has developed into a mix between the Upper East side and Greenwich Village. What a combo!! Lincoln Center offers Barnard students many cultural activities such as plays, opera, ballet or a movie at one of the nearby theaters. Columbus Avenue has tons of awesome restaurants, boutiques and, the all important, weekly vendor fair.

If you are looking for something more scholastic, the Museum of Natural History always has fantastic exhibits. Learn about the origin of man, jewels and the dinosaurs. This cultural niche is not far from our beloved Morningside Heights. Just a hop, skip and a jump on the 1/9 will take you wherever you need to go.

Women's Archery Continues on the Road to Success

Photo Courtesy of Archery Team

urtesy of Archery Team

The 1999-2000 Women's Archery Team has had a good season, and placed consistently well in all of its local tournaments. The team did very well in the indoor competition, recapturing its first place ranking in the East, and moving up one spot to second in the nation. At the indoor nationals, 15 personal bests were recorded, and four archers shot over 1000. There were three new additions to the roster, that in Columbia archery-like fashion, quickly got a handle on shooting. Sophomore Amanda Sneider and first-years Roxanne Atienza and Shelby Peak, competed and did well in some of the larger competitions. The returning members continued to improve, while the seniors ended their college archery days on a fantastic note. Senior Christina Jung has a legitimate chance of becoming a two-time All-American shooter, and junior Namrata Tripahti might just join her. So, the next time you pass by LeFrak Gymnasium, look out for arrows as this team continues its rise to success!

Despite the obstacles the Lions have had to overcome, the Columbia Women's Basketball Team has started to make a name for itself. They have awakened well before dawn for morning practices, have stayed late into the night for evening practices, and they have spent many afternoons with trainers and Athletics staff. It has finally begun to pay off. Although the team began with a sluggish start, they finished strong with a 6-8 record in Ivy League play, the best league record yet for the team.

While they feel that the overall finish of 7-19 indicates that there is still room for improvement, the Lions' defeat of teams such as Harvard, Penn, and Yale has provided the team with new confidence. Surely, the Womens Basketball team will carry these skills into the new season. The team has become a family over the years, welcoming new members, and saying goodbye to others. The team has clearly grown together, defending one another no matter what. Having encountered amazing competition, the players have learned to set their own goals.

Playing basketball is second nature for these women and they thrive off the game. Indeed, many of the players have been heard saying that it has been an honor to play with the women on the CU Womens Basketball Team.

Columbia Women Meet the Challenge

oto Courtesy of the Columbia University Daily Spectator

urtesy of Columbia University Daily Spectator

It has been a challenging year for the Columbia Women's Crew Team, but they have braved the rough waters quite heroically. With a stronger and more experienced squad, the Light Blue started the season on a high note, beating Marist and the Coast Guard on the Harlem River. However, when faced with Ivy League competition, the young lions did not fair as well, although they did give it their all. Despite their loses, a mid-season win over Rutgers, the first one in years, coupled with a victory over visiting Georgetown and UMass, boosted their confidence. The Lions faced a brutal schedule involving Top 20 competition every weekend, forcing them to work twice as hard with their developing program.

However, neither the teams record nor their ranking reflects the power of the squad, which hopes to be competitive as an underdog at the Eastern Sprints. With another year of experience behind them and only four graduating seniors, the young Lions look to be more than a developing program next year - Columbia Women's Crew hopes to be a serious competitor.

The 2000 Womens Cross Country Team experienced the most successful year in Columbia University history. We retained our title as Metropolitan Champions by running harder and faster than someone who is late to their senior seminar. Not only that, but we came in an impressive third in the Ivy League at the Heptagonals. The women runners also finished their best ever at the regionals. This was definitely a season to make note of, and is a great departing gift to our talented seniors.

The season was consistently led by our senior co-captains, Kim Fisher and Kara Kerr, and sadly we must bid them farewell. However, we look forward to our millennial season and hope to be led by the remaining members of the team. Two seniors, one junior, and several sophomores will head up our team in the Fall of 2000. We hope to be led to new heights in the upcoming years and continue to make University history.

omen's Fencing is NCAA Bound Once Again

Tim McKinney

The 1999-2000 Columbia Varsity Fencing Team included four Barnard students: Captain Laura Napoli, Ani Aydin, Melinda Mellman, and Sonal Mahida. This season marked the first year that the National Collegiate Athletic Association officially sanctioned women's sabre for intercollegiate competition. Presently, the Columbia University fencing team touts six squads, one for each gender, in each weapon, epee, foil, and sabre. The team also has the potential to qualify 12 fencers for the NCAA championships.

Columbia's fencers started off strong in their first meet against Wellesley and Harvard, but as the season progressed, some difficulties arose. Homecoming resulted in one win against Rutgers with losses to both Princeton and St. John's. After defeating NYU downtown, the Lions traveled to New Haven and suffered a really close loss to Yale. After losing the title of Ivy Champions, after being co-Champions last year, Princeton and Yale, Columbia came back home to defeat Vassar and Fairleigh Dickinson.

Results from Northeast Regionals together with individual seasons, resulted in four women's qualifiers - Laura Napoli, Susan Jennings, Ellen Blount, and Monica Conley. It should also be noted that Susan Jennings was awarded First Team All-Ivy Honors for the fourth year in a row, a status that only two other Columbia women have earned. As always, the team wishes the seniors best of luck. Touche to all and to all a good bout!

The Columbia Field Hockey team enjoyed its best record in 1999. This year, the young program had its first seniors returning a fourth year of play. Antoinette Allen (Co-Captain), Lindsay Morgan, Daira Tramontin (Co-Captain), and Whitney Weems solidified as team leaders. With the experience of the upperclassman and the dazzling talent of newer members, the Field Hockey team enjoyed an amazing season overall.

Columbia began the season with a win and although they lost the next few games, the Lions regained their composure in October with several solid performances. Although the team lost to Cornell 3-2 in overtime, the Lions were convinced that the season would turn around. The team went 6-1 in their next seven contests. These wins marked historic moments for the team. Columbia beat Colgate, Stanford, Hofstra and Sacred Heart for the first time. In addition, the Field Hockey team beat Rider 6-0, the largest margin of victory for the team so far. Most importantly, the team enjoyed its first Ivy League win by beating University of Pennsylvania.

The team played as a cohesive unit with the attack sophomore stand-outs Alon Donohue and Page McGranahan. The midfield held exceptional talent with junior Florencia Battilana, sophomore Nikki Campbell, and freshmen Melissa Macomber and Dana Zullo. The defense shut out five teams with solid performances by sophomore Cameo Roehrich and freshman Molly Starsia-Lasagna.

The Columbia Field Hockey team finished its season 7-10. Despite moments of frustration, the players took every effort to make the team a positive and responsive exemplary unit. Looking ahead, it is clear that the team will be a threat to be reckoned with in the Ivy League and beyond.

Ready for Action!
For the first time since the womens varsity field hockey team was established in 1996, the Lions captured an Ivy League Win against University of Pennsylvania.

Team Hug
The team graduates its first seniors with three years of varsity experience. During these last four years the team has come together as it grew stronger. These players find it hard to leave.

Womens Soccer Improves Year by Year

The Women's Soccer Team may have struggled against powerful Ivy League competition during the Fall 1999 season, but the Lions had several spectacular wins against a variety of teams throughout the country - many of them on the road. The Lions opened the season with three solid wins against Fordam (2-1), Hofstra (2-1), and Wagner (4-0). Although the Lions then stumbled and suffered a series of disappinting losses and tied games, the women's soccer team got back on their feet with a series of three wins in midseason.

Early in October, the Lions faced Colgate at their opponents home field in upstate New York and returned to Morningside Heights with a 1-0 win. Even without the home field advantage, the Lions were able to follow up their defeat of Colgate with two more shutouts during a road trip to Alabama. The Lions defeated the Alabama-Birmingham team that they tied the year before by a score of 2-0. By the end of the weekend, the Lions had yet another win: they emerged victorius from their match against Mississippi 4-0.

The Lions finished up the season with an incredible 3-1 win against Stony Brook. Highlights of this game included an amazing 30 yard kick by Rose Francis past the opposing goalie that secured the Lions' position in the lead. The team will sorely miss the eight seniors who graduate in May 2000, including captains Ali Ahern and Kerry Martin, but the seniors are confident that the team's underclassmen will continue the winning tradition established by the recruiting class of 1996.

Lions Take Fifth in Ivy Swimming and Diving Champs

Columbia finished fifth for the fourth straight season in the Ivy League Women's Swimming & Diving Championships at Harvard. The Lions scored 336 points, more than double the total of sixth-place Cornell, but trailing Princeton (794), Brown (747), Harvard (656.5) and Yale (466.5).

Teuscher kept intact her record of never having lost a college individual race when she won the 100-yard freestyle in 50.32 seconds, an NCAA provisional qualifier which also qualified her for the Olympic Trials. She also teamed with fellow senior co-captain Annie Reding, junior Katie Lynch, and first-year Christine Wright to lead the Lions to fourth in the 400 free relay, in 3:27.98. Brown won the event in 3:25.95.

First-year Lucy Eccleston finished third in the 200-yard butterfly with a time of 2:03.45; earlier in the day, she had set a new Columbia record of 2:01.27 in the preliminaries. Fellow newcomer Joanna Kolb was fifth inn the 200 backstroke in 2:04.87, another school record. Sophomore Amy Blume was seventh in the 1650 freestyle in 17:15.00. And two Lions placed in the three-meter dive -- first-year Rachel Flax was 10th and sophomore Shorty Sims was 13th.

Teuscher was chosen the Outstanding Swimmer of the Meet and head coach Diana Caskey was recognized by her peers, an honor equivalent to Coach of the Year.

Vomen's Tennnis Earned First Ivy Win in Years

Courtesy of Columbia University Daily Spectator

To say that the 2000 Columbia Women's Tennis season was a groundbreaking effort would be an understatement, as Columbia earned its first Ivy win in years and narrowly missed its first-ever Ivy winning season.

The Lions came out of their first match against Cornell looking like a top team in the league. For its first Ivy win, Columbia beat Cornell 6-3, winning four singles matches and two doubles matches. First year No. 1 singles Tina Romic came from behind to win her match, and sophomores No. 1 doubles Joyce Chang and Ilene Weintraub sealed the historic win with an 8-3 decision. The Lions were also consistently led in the season by Laila Shetty and a solid core of upperclassmen.

Though it finished with a losing Ivy record, (but a record of 15-8 overall), Columbia made great strides in the League, setting the table for a title run in the coming years.

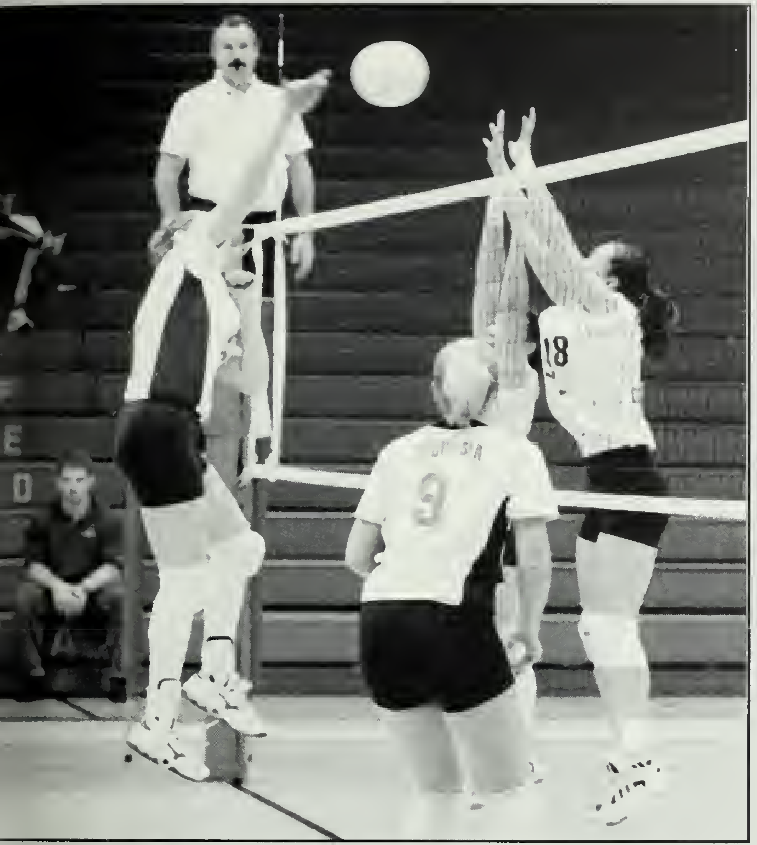
Womens Volleyball Makes an Ivy League Comeback

Courtesy of Columbia University Daily Spectator



Courtesy of Columbia University Daily Spectator

Womens Volleyball finished victorious this fall with a 15-10 record. The Lions began the season strong with five straight wins. The Lions came on steady again with a series of strong wins against Central Connecticut, Cornell, and LIU.

Early in October, the Womens Volleyball team beat St. Francis in 3 games for the second time this season. Many of the women proved themselves to be vital and influential components of the team; Joanna August had 11 digs while Tara Tara Twibell had 19 set assists and two service aces. Kate Beauregard had kills, two service aces and 11 digs. Again and again in each match, these layers, along with standouts Shumsky (Co-Capain), Miller (Co-Captain), Topik and Lewis, would bring the Lions closer to a win.

The team played a fierce game against Cornell this past October with a 3-1 victory. Not only did the lady Lions emerge triumphant from Levien that night because of a well played game, but because this victory against Cornell was the team's first Ivy League win of the season and their first league win since the 1997 defeat of Brown in the Ivy League Championships and the first regular season league win since 1994.

Near the end of the season, the Lions defeated LIU, led by Shumsky on the offense with 20 kills in addition to her 12 digs. Beauregard was also key to the victory recording 12 kills and 13 digs. The victory against KIU raised the Lions to 14-8. Two games later, the season closed with this fall's win total matching the combined total of wins during the past two seasons.

Who said that rolling around in the mud was just for kids?

The Columbia Women's Rugby team is comprised of about 25 Barnard and Columbia women, as ready to tackle each other as to give playing tips and hang out after practice. As a club sport that is rapidly gaining recognition, rugby can be a fun way to get exercise - or become a way of life. New players are always welcome, and most who give it a shot find that it quickly becomes addictive.

The Women's Rugby team was formed in the Spring of 1997, and it is on the rise. We can be seen ruking, mauling, and scrummaging on South Law (no matter how little grass left..) or at Baker Field. In th Spring of 1999 , head coach Iai Kennedy led the ruggers to ou first winning season.

The team really took off, improving on our ranking in the First Annual Women's Ivy League Tournament and placing third in the Stonybrook Tourney - our first time even winning a game there. The Fall 1999 season saw the ruggers and tri-captains Kristie Kleiner (BC '00), Mary Weincke (BC '01), and Chris Maisano (CC '01) through our first winning Metropolitan New York (Division 1) playoff game, and on to the Northeast playoffs to face the top rated team in the Northeast. We're planning on a productive off-season and another hard-hitting, memorable Spring.

Cheerleading Experiences a Rebuilding Year

Photo by Joshua Mason

The Columbia University Cheerleading Squad of the 1999-2000 season saw great accomplishment although the squad's numbers quickly dropped, leaving only seven returning and three new members on the sqad - Jaclyn, Jailing, Roy Rodriguez, and Elizabeth Viriya. Two injuries shortly thereafter left the sqad even smaller than it began, but the remaining members certainly stepped up to the challenge and completed the fall season with three new stunts and a new fight song routine for both home and away games.

Staying positive, despite these numerous setbacks, was this year's new full-time coach, Pam Miguel. Her energy and encouragement remained consistent , and even intensified, as the squad's numbers grew smaller. Under Miguel's direction, the squad made it a priority to attend other Columbia sporting events in addition to Football and Mens Basketball, including Mens and Womens Soccer as well as other community projects in New York City. For Basketball season, the team finally performed with all of its 10 members and even added an eleventh, Rosemary Pelayo. Spring also saw a new and updated Cheerleading website, created and designed by returning member, Joshua Mason. The season ended with a performace routine -- choreograhed by Helena Andrews, Raquel Aragon, and Pam Miguel - and with the advent of a new mascot, whose sleeker features, bigger paws and jagged teeth will be entertaining Lion fans for a long time to come.

New York Phat Disc (N.Y.P.D.), Columbia and Barnard's ultimate team, is a fun-loving, competitive group of athletes. We practice several times a week and go to about five weekend-long tournaments each semester.

You'll find us tossing a disc in all types of weather, getting as muddy as possible. Besides getting a workout and having a great time, NYPD enjoys playing against teams from all over the country. Since ultimate frisbee is a non-referred sport, good spirit and mutual respect are always encouraged. We love to teach this sport to others -- new members are always welcome.

999 Women's Diving

ourtesy of Columbia Diving

The Diving Team is made up of unique women. Here is a little tidbit about some of the team divers.

Jessica Lynn Feldman, aka Hessica, is known for blurting Swahili and other random ethnically diverse comments during practice or sing songs that pop randomly into her head. Jessica is a three-time Ivy Championship qualifier and will look to lengthen her hurdle this year. Jessica likes to hang out a lot.

Monica is a California girl who will hopefully chill out this uptight New York team. From San Diego, Monica will have to adjust to the cold winters here and the fast paced, stressed out nature of the Columbia University diving team.

Shorty is a Native Texan and brings a lot of spunk to the team. Shorty dove with the famed Woodlands team in Texas and will be a great addition to Columbia. Shorty, (although she's not that short), likes to have fun and that's why it's so painful that she didn't come on training trip last year. However, this year is a whole new story and the team will be graced by her wonderful presence this year. We love Shorty.

Rachel is another freshman who will make an immediate impact on the team this year. Rachel is a High School All-American out of New Mexico. I wonder what language they speak there? Anyway, Rachel likes burritos.

Good afternoon. On this day marking the beginning of many new adventures and accomplishments, excitement and joy, I ask that you take a moment to reflect on what has made this moment in time possible. Think way, way back, seemingly millions of years ago, to the day we arrived in the whirlwind of chaos, just as Dorothy first stepped foot in Oz. Like Dorothy, we, too, were on our way to beginning an exciting adventure, promising a great education, requiring a lot of courage and heart and rewarding us with a home (which is why we chose this as the theme for our senior banquet). As we began the journey, though, that first day of freshman year, instead of the yellow brick road, we had Broadway with chalked out squares. There, we sat with pillows, illegal microwaves and halogen lamps, entire wardrobes, waiting to move into our rooms and get on with our journey. Remember Barnard back then.

Take a look around you at our home now; how much better off is Barnard since we've been here? Among the many improvements that we have helped to institute are the recycling program, one of the best sexual misconduct policies in the nation, a move toward socially responsible investing, the elimination of the 18 credit limit, and so much more. None of this could have happened without us-we saw a problem and went out to fix it, with the support of the administration and faculty. While Dorothy was out looking for home, we were looking to make our home a better place for everyone.

Melissa Marrus
President of the Class of 2000 Graduation Speech

Home, however, is much more than a place, a physical location. Home constitutes the family, friends, and lasting personal relationships that better every one of us. While our class has certainly left its mark in the legacy of Barnard, each of us has made an indelible mark upon the people here at Barnard. As we sit here, celebrating our accomplishments as individuals, we cannot neglect the fact that we could not have done this alone. Through the support and inspiration of our peers, faculty and administrators, we have become better, stronger women, ready to face the challenges that life outside of Barnard has to offer. Think of your friends, your relatives, the people that you love-the family in the truest sense of the word, that has been your greatest supporter.

We arrived here what may seem like ages ago or just yesterday, and now we are moving forward, taking on new challenges and endeavors. We're not, however, leaving this behind-at the very least, our footprints remain. Just as we rely on the guidance and love of our family and friends, we have provided the same for others. Without sharing in this care for each other and for our community, we could not have evolved into the successful and fulfilled women that sit here now. We have helped friends become better people and accomplish extraordinary feats, just as they have done the same for us. We cannot leave that behind.

To put this all in perspective: if we can accomplish all of these things in one place, in four years, can you imagine how much we can do with the rest of our lives, in the rest of the world? We are, truly, headed for great things. With all of this behind us, with the support of Barnard, with the love of our family and friends, with the knowledge of our own power as individuals, we are ready to head out on our own amazing adventures, be it through Emerald City, New York City, or any other place in the world. Though there's no place like Barnard, there's certainly no class like 2000.

Fiza Quraishi
President of SGA 2000
Graduation Speech

"So what are your plans for next year, or is that a bad subject?" It seems that this question has replaced "so, how's your thesis coming along?" as the most dreaded question for many a Barnard senior. There seems to be an implicit expectation that we graduate from college knowing what we will be doing for the next several years. People have told me time and again that my college years will prove to have been the most amazing four years of my life and nothing will ever compare. Understandably these past four years are unique, and we will probably never be in the same type of wild and crazy living or academic situation. Despite this fact, however, I think life post-Barnard has much to offer us.

We came to this school as first years or transfers, and I don't know if any of you were like me, but I was unsure as to why I was here or what I wanted out of my college experience. Well here it is, four years later, and lo and behold, I am in a very similar position. Who knew? I am unsure as to what I want to do with the next two years let alone with the rest of my life, as I'm sure many of you are. But, the difference now is that we are all armed with our experiences here at Barnard to enter the "real" world. While many of us may have jobs lined up for the future, or are enrolled in graduate programs, we are all in a period of transition and instability. Having a plan set out for the next few years does not mean that we should stop experimenting and exploring our options, whether they be career options or personal life choices. Hard work and motivation are certainly a virtue, but stability and constancy, my friends, are not the keys to success and perhaps they should not be our goals.

College was a time for us to break personal barriers and question many ideas that we hold to be true-this to me was the most valuable lesson I learned in college. I have met many extraordinary women here-it has been you, my classmates who have helped me to learn many things about myself and others. It has been my experiences with you that have made me realize that I must always try to understand where others are coming from and see different point of views in all aspects of life. By questioning ourselves we work on making ourselves better and more complete people, something we need to continue doing after leaving Barnard.

We hear about Barnard women going out and changing the world and we are told that we, too, can change the world with our education and the leadership experiences we have gained here. We need to remember, however, that the most effective change comes when we look into ourselves. This is part of being educated, a process that we have all taken part in here. Our education at Barnard is not composed merely of our academic work or leadership experiences. Our education comes from every interaction we have had with our peers, faculty and administration. Our education comes not only from what we have learned in classes, but also from what we have learned from others and about ourselves. Now, upon this entrance into the professional world we need to continue questioning and learning about ourselves in relation to the people we encounter throughout our lives. In this way, perhaps we can carry on reminders of our experiences and what we have learned here at Barnard.

So, back to that gnawing question of what our plans are for next year. I guess my answer is to try and resist the ease of falling into a myopic routine of life, working with my nose to the grindstone instead of stepping away from my work, at least metaphorically, and indulging in the variables that the future has to offer. I hope you all join me. Good luck in the future and keep it real in the '00!!

Mujeres is the first and only Latina Organization at Barnard College, established in 1998. Our goal is to have a strong and positive awareness of Latinas within the Barnard-Columbia community. This goal is achieved through informative guest speakers and events in which pertinent issues effecting Latinos in the present day are discussed. We also have many events in which the proceeds have been given to a number of worthy causes and programs geared towards uniting the Barnard-Columbia Latino community.

Organization of Pakistani Students

Photo by Archana Minnal

The Organization of Pakistani Students focuses on uniting the Pakistani community at Columbia University, however its members need not be Pakistani. This aspect of the organization best depicts the nature of Pakistan itself which formed only 52 years ago on the basis of creating a unified Muslim government for the Muslims of Southern Asia to live under. The Organization of Pakistani Students is as unique as Pakistan itself. Some of the organzation's events have been conferences between the Pakistani and Indian ambassadors during the controversy over the state of Kasmir or simply Pakistani dinners.

5. Ask whether you have to come to class.
6. Present the professor with a large fruit basket.
7. Watch the professor through binoculars.
8. Interrupt every few minutes to ask the professor, "Can you spell that?"
9. Wink at the professor every few minutes.
10. Laugh heartily at everything the professor says. Snort when you laugh.

Prohibition
For nearly 14 years - from Jan 29, 1920 until Dec. 5, 1933 - the manufacture, transportation and sale of alcoholic beverages was illegal in the U.S. The stage was set for more than a decade of combat between the "wets" and the "drys" - those determined to keep drinking and those determined to enforce the law.

Stock Market Crash, 1929
On Tuesday, October 29 - known ever since as Black Tuesday - more tha million shares of stock were sold. The value of most shares fell sharply, leav financial ruin and panic in its wake. There had been financial panics, but never a collapse in the stock market have such a devastating and long-term effect.

Q&A What is your most memorable moment since attending Barnard?

Larissa Durbak: My 21st B-day, we went to Club 13 down in the East village and my suitemates supported me no matter what happened. They helped me celebrate my birthday in a suitable way.

Alexandra Vasilescu: When I went to Biosphere during summer of '98. Our group of 20 were isolated from society where we all bonded - A really unique experience drastly refreshing from NYC.

Candace Lee: Channel nine's "Change of Hearts" during finals week, it's a dating game. We would always take out two hours during finals to watch the show.

The Great Depression
As a result of the stock market crash, the value of money decreased as the demand for goods declined. By 1932, industrial output in the United States had been cut in half. About 15 million people were out of work, more than 90,000 businesses failed completely. The economic crisis was not completely solved until World War II began.

Q & A If you had three wishes to change Barnard, for better or for worse, what would it be?

Linda Jo:
1) Abolish P/D/F and just make it P/F.
2) Get rid of required meal plan for the Quad.
3) Get BETTER elevators everywhere on campus!

Bee-Ca Lin:
1) Better technology.
2) Swipe access.
3) Better job advising that's not centered on finance.

Karen Elaine Bailey:
1) A more equal relationship with Columbia.
2) See more diversity on campus - especially faculty that get tenure.
3) See Barnard get more involved in a larger community service.

Muhammad Ali
Born in 1942 as Cassius Marcellus Clay, he adopted the Muslim name, Muhammad Ali after joining Malcom X's Nation of Islam. Ali attracted attention with his flamboyant boxing style and outspoken manner on social issues. This made him a controversial figure during the 60's and 70's.

in memory of...

"In the end, we will remember not the words of our enemies, but the silence of our friends."

Before I Came to College I Wish I Had Known...

1. You could love a lot of people in a lot of different ways.
2. That every clock on campus shows a different time.
3. That if you were smart in high school, so what?
4. That you can know everything and fail a test.
5. That you can know nothing and ace a test.
6. That most of my education would be obtained outside of class.
7. The free food served until 10 is gone by 9:30.
8. That Biology is really Chemistry, that Chemistry is really Physics and that Physics is really Math.
9. That it's possible to be alone even when you are surrounded by friends.
10. A farewell is necessary before we can meet again, and meeting again, after moments or a lifetime, is certain for those who are friends.

Wilt Chamberlain
Chamberlain made the most of his athletic ability and tremendous size (7-foot-1 and 290 pounds) by being the only player to score 100 points in a game and had the three highest scoring games in NBA history. He died in 1999 at the age of 63 of an apparent heart attack.

Richard M. Nixon
He was the first U.S. president to resign from office. He won the presiden 1968, promising a quick end to the Vietnam War - but in reality he enlarged continued America's active role until 1973. Re-elected by a landslide in Nixon was brought down by revelations of administration misdeeds collect known as "Watergate." Facing certain impeachment, he resigned in Augu 1974.

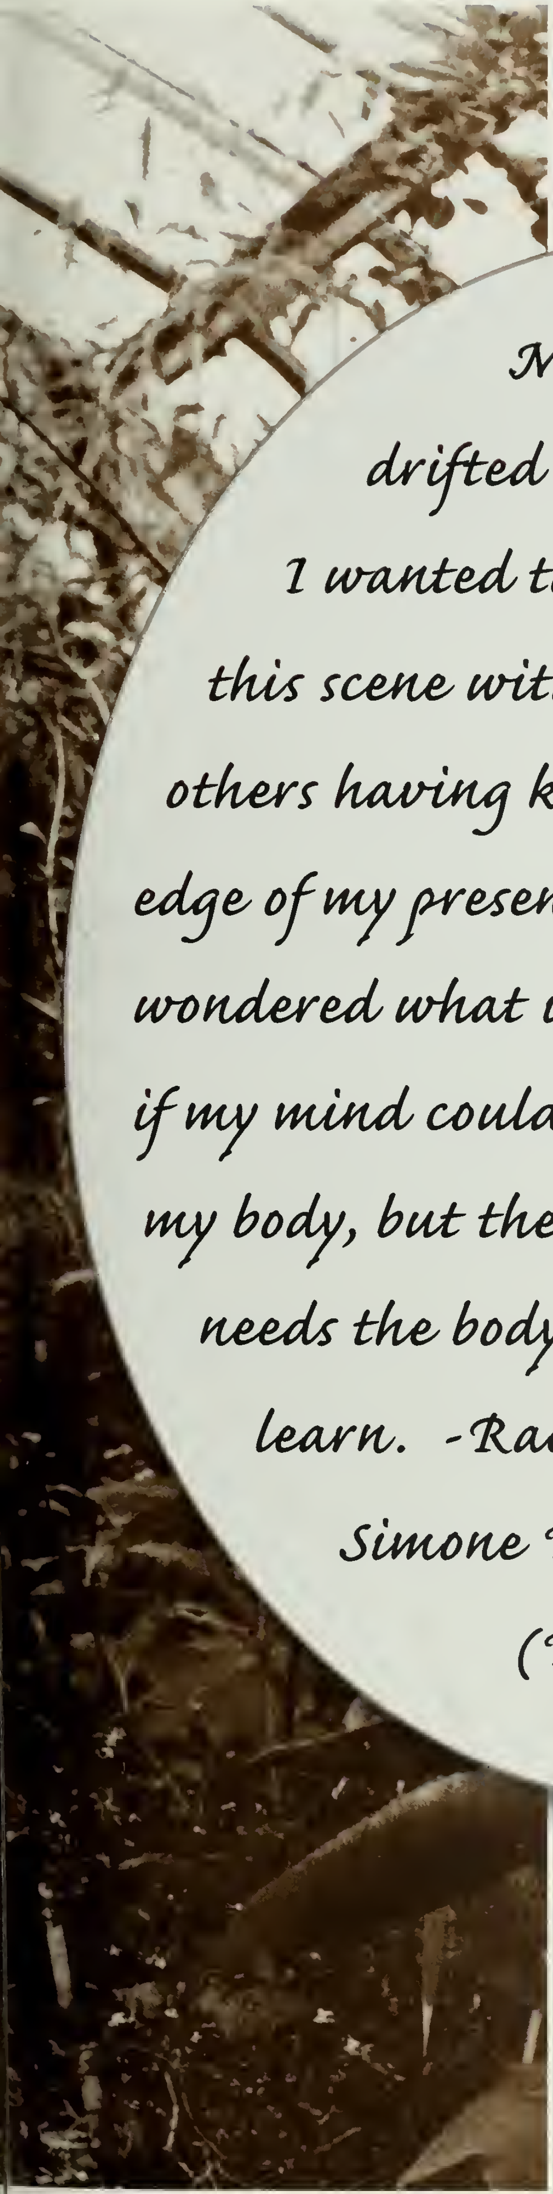
Q & A If Armageddon were to occur tomorrow, what would be the last things you would do before the clock strikes 12?

Asena Bahce:
I would spend the whole day with my family and friends, talking and eating - the two things I love most. And... pray before the clock strikes 12.

Maya Rosenthal:
I want to throw a huge party with all my friends and burn all our school books!

Antoinette Walker:
I would charter a plane with family and friends to Paradise Island and we would eat and be merry.

The Reverend Martin Luther King, Jr.
He advocated a nonviolent approach to achieving results in the civil rights struggle. King's finest hour came on Aug. 28, 1963, when he led the great march in Washington, D.C., and gave his famous "I have a dream" speech at the Lincoln Memorial. In spring of 1968, Dr. King went to Memphis to show support for the striking city workers but he was assassinated by James Earl Ray.



My thoughts drifted onward. I wanted to observe this scene without others having knowledge of my presence. I wondered what it would be like if my mind could leave my body, but the mind needs the body to learn. -Racquel Simone Booth (BC '00)

Office of the President

Dear Barnard Class of 2000,

Think of this yearbook as a time capsule. It has the power to take you back to Barnard (as soon as you can unearth it from your closet) from wherever you are. It is a link that will always connect you through time and space to the campus and to each other.

You arrived at Barnard (needless to say, by more conventional transport) from all over the country and the world, filled with ambition – in the best sense of that term – for yourselves and for your community and with a passion for learning, and you each enriched the campus with your unique talents and experiences. I know that, as Barnard alumnae, you have the intellectual strength, the confidence and vision to go wherever your dreams can take you.

We hope you will come back to Barnard often, from near and far, by virtual and actual conveyances, and bring us tales of your lives in this new millennium …our door (and web site) are always open.

With all good wishes and affection,

Judith Shapiro

Words of Wisdom...

Rest here a while and bathe in the glow of
your achievement.
Reflect on the road you have travelled,
the obstacles you have overcome,
the lessons you have learned,
and the successes you have had.
But do not rest too long on your laurels
for there are new dreams to dream
new goals to pursue
and new challenges to face.
After all this is both a GRADUATION
and a COMMENCEMENT.

"For those of you who choose now not to marry, and to go on to graduate schools or to work, may I reiterate what I have said before: that you will have happiness in your independence; that you will meet men on a different and more mature level. You will plan your lives differently from your married sisters, but many of us have found the plan good."

Dearest Nahid!

Watching you grow from a cute little baby into
A sophisticated, prudent and beautiful young
lady has filled us with ceaseless satisfaction
And imperishable joy.
And today, on the day of your graduation,
Our pride and confidence in your willpower,
persistence and imagination,
Your charisma and competence,
In your person as a whole, is far beyond the
limits of words.

Our deep love and support is with you, as you take on new challenges in the future.
Know that with your talents, strength and intelligence, there are no obstacles that can block
your path to fulfillment and success...

To Allison:
"I left the woods for as good a reason as I went there. Perhaps it seemed to me that I had several more lives to live and could not spare more time for that one. I learned this, at least, by my experiment; that if one advances confidently in the direction of her dreams, and endeavors to live the life which she imagined, she will meet with success..." A poem by Laila Shetty

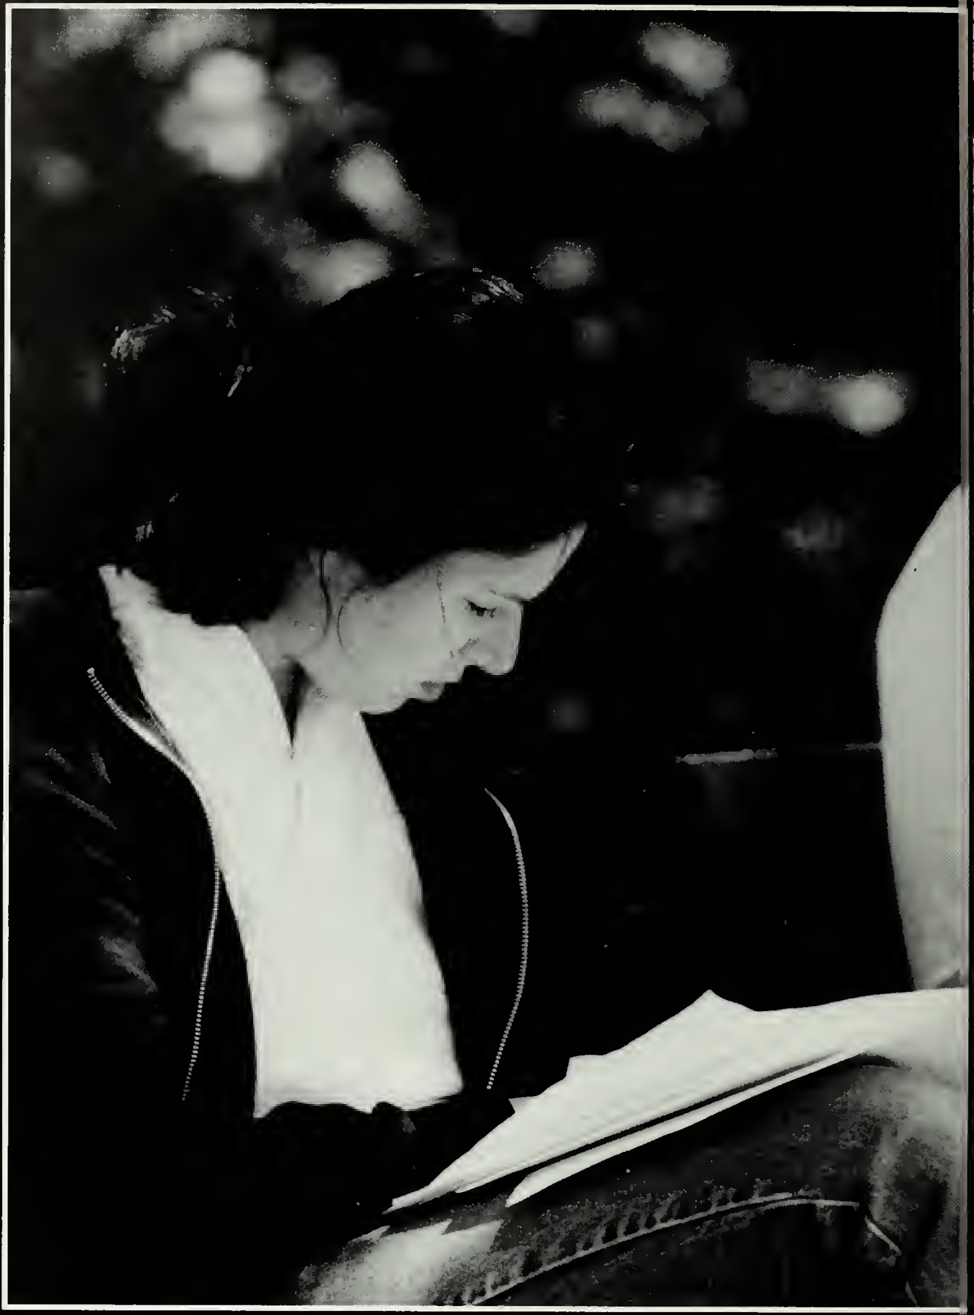
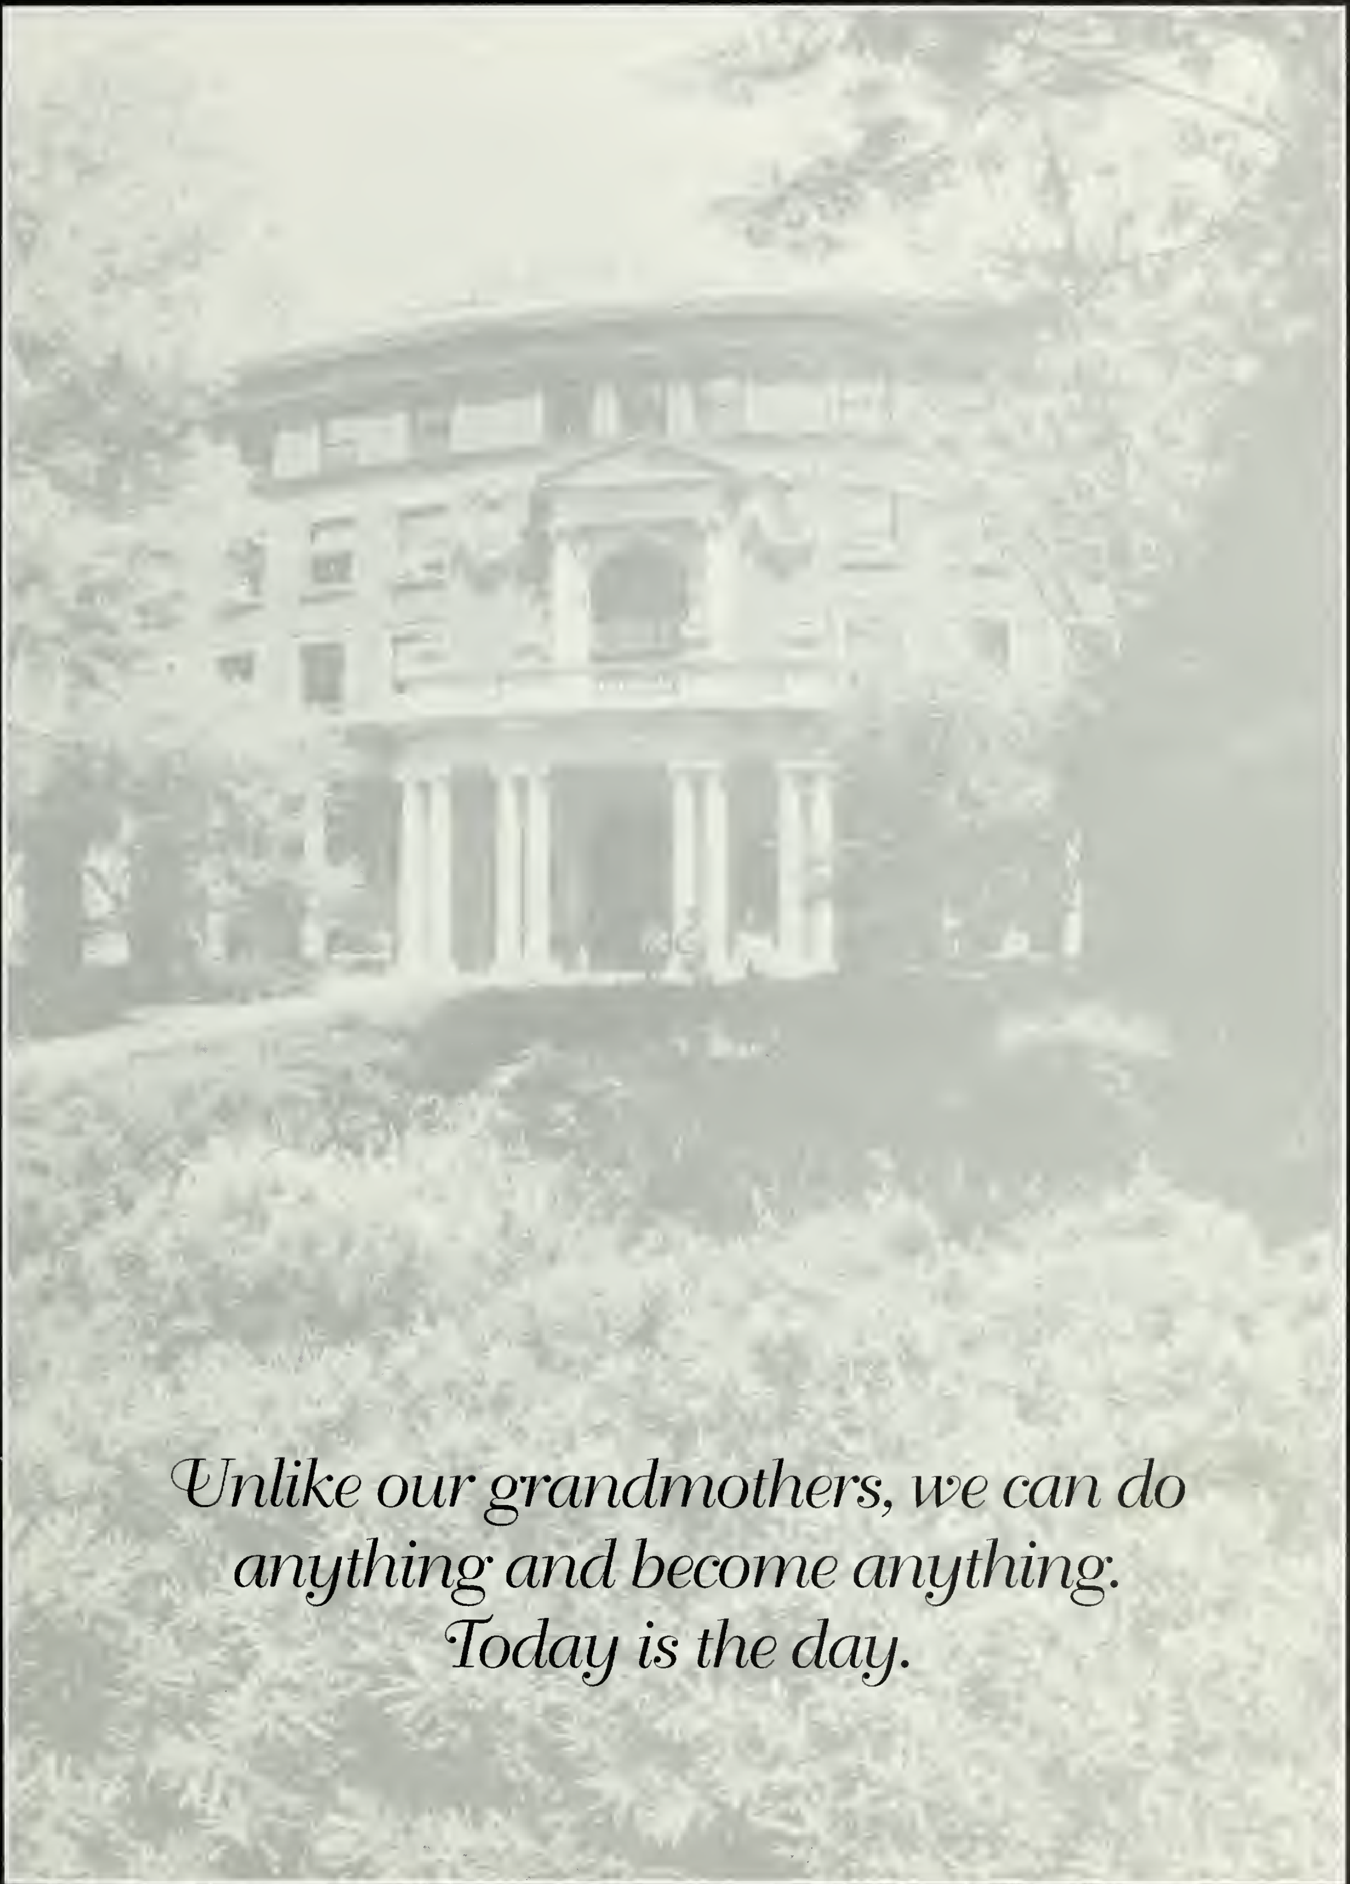
Today is the day
The day for dreams to come true
The day for us to become what we want
Today is an opportunity
An opportunity for women to [illegible] their [illegible]
An opportunity for us to become anything [illegible]

Today is chance
A chance to prove that we are strong
A chance to excel in the world.
There is no second chance,

No next time.
We must seize the moment
And take advantage of the opportunities that we have.





Unlike our grandmothers, we can do anything and become anything. Today is the day.
